Subject: Permit Fee, Martinique Mining, Milla' Martinique, S/017/046, Garfield County, Utah

Dear Mr. Wilson:

On October 1, 2004, the Division received a copy of a letter from you addressed to the Bureau of Land Management wherein you said reclamation of the Milla' Martinique site would be completed by October or November. Based on this letter, we listed the status of this site as "inspect" even though you did not directly request an inspection for the purpose of determining whether reclamation was adequate.

Because the site was listed as "inspect," we did not send you a statement for permit fees last June. Enclosed is a billing statement for the permit fee for 2005-2006. Please submit the payment within the next 30 days or no later than January 17, 2006.

We commend you for the cleanup work you have done. We have inspected the site and have found that grading has been completed and the trash removed, but vegetation is not established. Rule R647-3-109.13.11 requires that vegetation be established for a period of three years before the Division can release the site. We would be happy to provide recommendations for establishing vegetation on this site; some of these recommendations are given in the enclosed inspection report.

If you have questions regarding the revegetation requirements or other aspects of this letter, please call Paul Baker at 801-538-5261.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Regulatory Program
